

Work Experience

- since Apr 2026 **Working Student Software Engineering, revel8 GmbH**
Developed a learning platform to help companies train their employees on IT security topics.
- Sep 2025– **Junior Software Engineer, ICONPARC GmbH**
Mar 2026 Working Student developing reliable B2B applications using a proprietary DSL and Java. Working with complex relational database schemata. Additionally developing an LSP server for the DSL.
- May 2025– **Student Assistant, Technical University Munich**
Aug 2025 Assistant at the „Chair of Network Architectures and Services“, continuing the development of CTF style challenges on various topics to accompany a network security course, using *Python*
- May 2022– **Junior Professional, TNG Technology Consulting GmbH**
Sep 2024 Working Student in the internal IT department: Developing software using *Python*, *Go* and *TypeScript*
- Sep 2021– **Organizer (Übungsleitung), Technical University Munich**
May 2022 Co-managing the course „Functional Programming and Verification“: Creating exercises, implementing tests, organizing tutorials accompanying the lecture, designing and grading exam questions, using *OCaml*
- Nov 2020– **Student Tutor, Technical University Munich**
Aug 2021 Tutor for the courses „Introduction to Computer Networking and Distributed Systems“ and „Fundamentals of Programming“. Teaching students *Java* programming and networking and distributed systems

Education

- since 2023 **M.Sc., Informatics, Technical University of Munich**, Current grade: 1.1
- 2024–2025 **Exchange Semester, Informatics, The University of Tokyo**, 1.0
- 2019–2023 **B.Sc., Informatics, Technical University of Munich**, 1.6

Projects

- 2025 **Material Management Tool** | *Kotlin, TypeScript & Svelte, Docker, Postgres*
Tool to manage inventory of a scout group, register damages, create packing lists and more. Kotlin API, Postgres schemata and Svelte frontend.
- 2024 **Network Security Hacking Challenges** | *Python, Cryptography principles*
Development of a set of CTF style challenges on various topics to accompany a network security lecture. Design of complex and interesting challenges and implementation of challenge servers and example solutions.
- 2024 **DPSG Letter** | *Kotlin, TypeScript & Svelte, Docker, L^AT_EX*
Tool to allow non-technical users to generate custom letters from a latex template. Implementing a Kotlin API handling latex generation using pandoc and custom Lua filters. Also designed a frontend.

Achievements & Honors

Deutschlandstipendium (2021, 2022, 2023, 2024, 2025)

Skills

- Languages Python, Kotlin, Go, TypeScript, SQL, Java, C++, Haskell, C
- Other Docker, Cryptography, IT Security, git, Linux, L^AT_EX

Volunteer Work

- since 2021 **Chairman**, *Deutsche Pfadfinderschaft Sankt Georg (DPSG)*, Langenbach
Chairman of the local scout group DPSG Langenbach
- since 2009 **Member**, *Deutsche Pfadfinderschaft Sankt Georg (DPSG)*, Langenbach
